

The graph illustrates the projected increase in the aging population (65+) across various regions from 1950 to 2050. The Y-axis represents the percentage of the population aged 65 and over, ranging from 0 to 20. The X-axis represents the years from 1950 to 2050. A red line shows the trend for the entire population, while green lines show trends for different regions. The graph indicates a significant increase in the aging population across all regions, with the most rapid growth occurring in the Asia-Pacific region.

Year	Percentage of people who are obese
1980	12
1985	15
1990	18
1995	20
2000	22
